

Vesaro Commercial Sim Centre Solutions

Sim Centre solutions for commercial use

Commercial grade simulators and solutions. See Terms & Conditions on our website for latest usage information

Step A - Simulator Selection

Before selecting your Venue management sim centre solution first select any number of simulators from the below commercial setups. You can mix and match any simulator from the following ranges and all simulators can be connected to take part in the same race.

(You can also run your Sim Centre without a venue management system but this would require manual control of all sims.)

Options for Commercial Use

Mobility Equipment

Event Trolley system

- Price £1500

Trolleys designed to allow easy transportation of the Vesaro Simulator from the Shipping crate to its final location. (Trolleys for Main Simulator body only, Display Stands require separate trolleys or can be hand carried)

Vesaro Rig Lifter

- Price £299

Jacking system custom designed specifically for lifting Vesaro simulators. This jack allows one person to load a Vesaro I Modular simulator onto our separate Trolley system product, the rig can then be easily moved between locations. Can also be used to lift one end of the rig at a time enabling you to work on the simulator for self-build systems or if you are doing an upgrade.

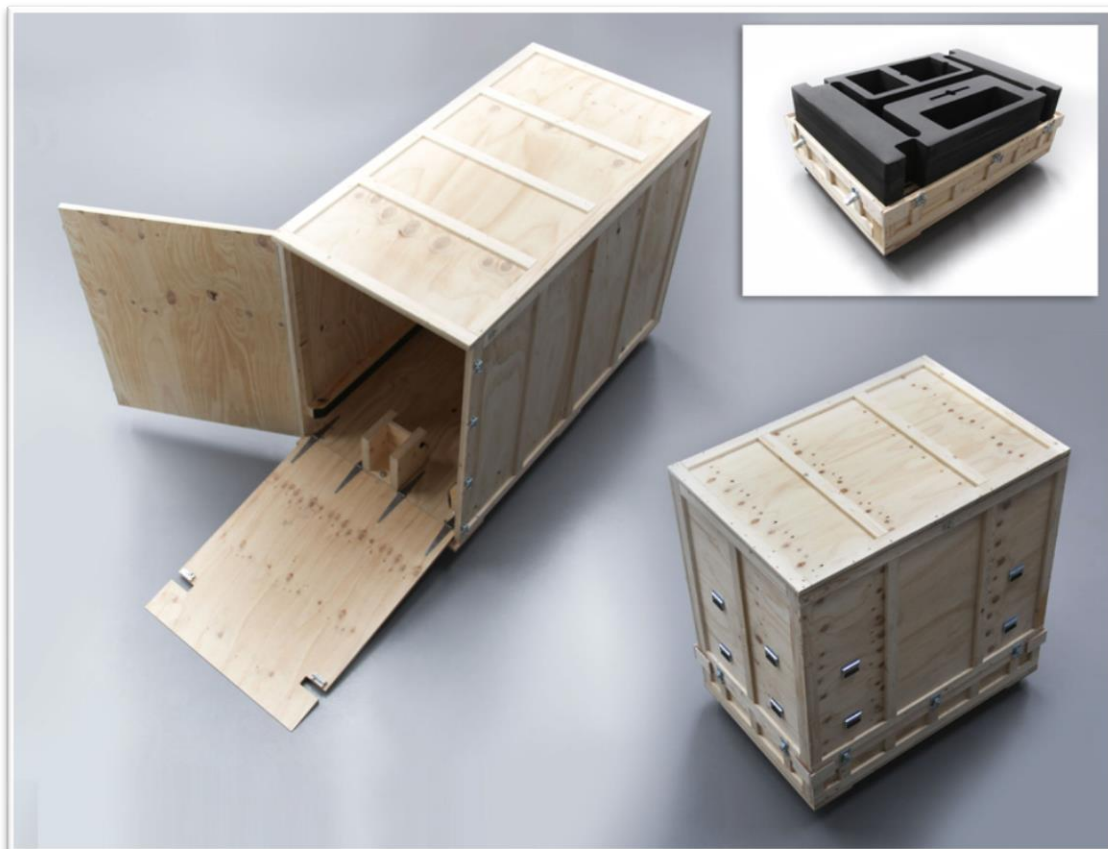

Image above of our flight case option. See next page for more details

Crates and Flight Cases

Event Flight Case – Simulator Body

- Price £1995

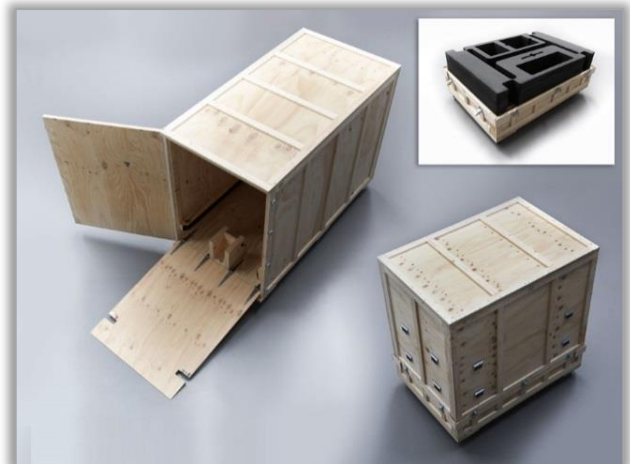

Professional flight case to house simulator body. Wooden construction with CNC machined inserts. Hinged end to reveal internal hinged ramp. 6 locking 100mm castors. Internal easy lockdown system requiring no tools or complicated strapping.

Event Flight Case Set – Simulator Body & Parts Case

- Price £3694

Professional flight case set to house simulator body and parts in second case providing easy and efficient shipping and management. Wooden construction with CNC machined inserts.

Pro Event Flight Case – Simulator Body

- Price £2999

Professional flight case set to house simulator body providing easy and efficient shipping and management. Aluminium construction with PVC coated panels and CNC machined inserts.

Pro Event Flight Case Set– Simulator Body & Parts Case

- Price £4998

Professional flight case set to house simulator body and parts in second case providing easy and efficient shipping and management. Aluminium construction with PVC coated panels and CNC machined inserts

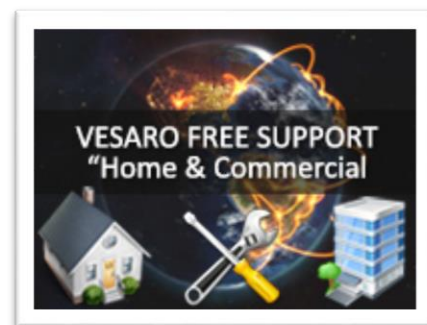

2 Year Warranty

We are proud to offer a 2 year Electronics warranty on all of our simulators

Fanatical support

We are fanatical about support, that is our promise to you, we've built a system that will grow and change with you, with the understanding that if you need our help, we will be there.

For all systems that include a Vesaro PC system every PC comes with remote login assistance enabling our team of experts to remotely access your simulator at anytime to help identify any issue.

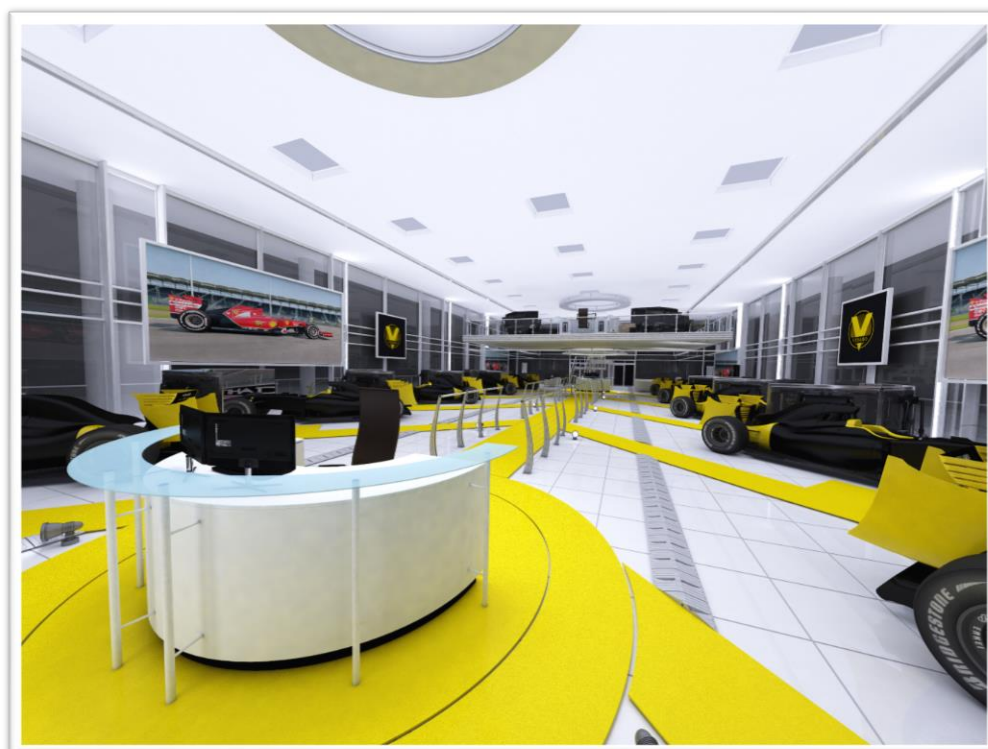

Backup

All Vesaro simulators with a Vesaro PC include a full image backup system allowing you to restore your PC to the day of delivery giving you a quick and easy way to resolve any issue when time is of the essence.

Optional On Site Setup & Training Your simulator will be fully assembled and followed up by an on-site installation by our team of engineers to a location of your choosing anywhere in the world. Our team will complete the on-site installation of your simulator in your desired location handling complete management of all cables to ensure a clean install. We will handle full optimisation of all systems and follow this up with a fully training program on how to operate and get the best from your simulator.

All Prices exclude shipping and VAT (VAT applies to EU Countries only) / Import Tax where relevant
